

## Vacuum Excavator/Potholer

### Overview

Horrocks Engineers is a full service Civil Engineering Firm serving clients throughout the western United States. Horrocks Engineers is recognized as an industry leader and employing cutting-edge technologies. We pride ourselves on providing a safe, fun, and family working environment with room for growth and advancement. Horrocks is looking for smart and talented individuals to join our growing team. Subsurface Utility Engineering (SUE) is a branch of engineering that deals with mitigating risks associated with new infrastructure design and construction. We work closely with engineers and utility owners to help identify utility conflicts using an array of technologies, including electromagnetic line locators, ground penetrating radar, GPS, conventional survey and vacuum excavation. Our work requires a high level of precision and technical ability. Horrocks Engineers provides our employees with the opportunity to **Learn More, Do More, and Earn More.**
